Credit Total	24	

### Accounting Major Special Notes

- In order to declare Accounting as a major, you must earn a grade of B or better in Intro to Financial Accounting, 33:010:272.
- There are two introductory Finance courses that can fulfill a business core requirement. If you intend to double major in Finance or declare a Finance concentration you will need to take Financial Management for Finance Majors (33:390:310). You can take Financial Management (33:390:300) if you have no intention of majoring in Finance or declaring a Finance Concentration. Credit will not be given for both courses if you take both due to switching to a Finance major/declaring a Finance concentration at a later date.
- If you major in Accounting as your first, second or third major, you are required to take 33:010:458 Accounting Information System and 33:140:320 Business Law I. You will not earn credit for taking 33:136:370 Management Information System. You can earn credit towards graduation if you take 33:522:334 Business Ethics but it will not fulfill a major requirement.
- Students with more than one Business School major may only double count one RBS course between those majors.
- Beginning in the Fall 2023 semester, there will be an update to the Business Forum (33:011:300) course requirement. **If you have already taken Business Forum (33:011:300), and passed the course with a C or better, you will not need to complete, 33:011:301, 302, and 303.** If you anticipate graduating in January 2024, May 2024, or August 2024, you should plan to take the current one-semester, 2-credit version of Business Forum in either Fall 2023 or Spring 2024. If you enter RBS in the fall 2023 semester you will need to take the new three course sequence **(33:011:301, 302, and 303)**. Students will not be able to take both the current version of Business Forum and one or more of the new courses and receive credit for both courses. If you have taken Business Forum, you should NOT take any of the new course offerings.
